Bringing Pharmaceutical Contract Manufacturing to New Heights

Lynk Biotechnologies Pte Ltd's pharmaceutical manufacturing arm, DynaLynk Pharma Pte Ltd, has successfully attained *Pharmaceutical Good Manufacturing Practice (GMP)* certification, after an audit by the Singapore Health Sciences Authority (HSA). DynaLynk Pharma's quality system complies strictly with guidelines laid down by the internationally-recognised Pharmaceutical Inspection Cooperation Scheme (PIC/S). The one-thousand square metre facility is located in a prime area that has been designated as the biomedical manufacturing hub of Singapore.

DynaLynk Pharma specialises in the contract manufacturing of semi-solid topical dosage forms, which includes creams, lotions, gels, balms and ointments. DynaLynk Pharma extends its capabilities along the supply chain to provide services in tube-filling, secondary packaging, procurement, QC testing, warehousing and inventory management.

The Singapore government has of late pledged substantial support for its manufacturing sector. In 2006, Singapore's Biomedical Sciences manufacturing output reached S\$23.0 billion, growing by an unprecedented 30% over the previous year. DynaLynk Pharma has been officially inaugurated as the nation's latest state-of-the-art pharmaceutical contract manufacturing offering.

DynaLynk Pharma Press Release, 18 April 2008 – Continuation...

DynaLynk Pharma is the latest high-tech investment undertaken by local pharmaceutical company Lynk Biotechnologies, further expanding the Lynk Group's competencies from its traditional domains of R&D and product development into the pharmaceutical manufacturing arena. DynaLynk Pharma lends manufacturing capability to the Group's thrust in commercialising locally-generated intellectual property, enabling the Group to meet business growth needs worldwide.

DynaLynk Pharma's rigorous quality systems, state-of-the-art equipment and facilities, as well as a commitment to excellence place it in a prime position to offer its valued partners reliable, responsive and specialised contract manufacturing solutions.
